

# RENEWABLE ENERGY FOR THE COMMUNITY

Thwing & Octon Parish Council have successfully applied for a grant to develop a feasibility study to implement renewable energy sources in the Parish.

This project is supported by the BEIS funded Rural Community Energy Fund (RCEF) which is managed by the North East Yorkshire and Humber Energy Hub and administered by Tees Valley Combined Authority

For further information and updates visit: [www.thwing-octon-renewables.co.uk](http://www.thwing-octon-renewables.co.uk)

The feasibility study will consider:

- Centralised power and heat options - solar PV plants and district heating networks;
- Individual power and heat options - rooftop solar PV panels, solar thermal panels and heat pumps;
- Street lighting - self-sufficient fixtures, with integrated PV panels and LED lamps.
